VUIIS
DXA Information Worksheet

Study Info:
Lab: ___________________  Project ID: ___________________

**PREGNANCY TESTING IS REQUIRED FOR ALL PERSONS OF CHILDBEARING POTENTIAL.**
TESTING MUST BE PERFORMED BEFORE THE STUDY. RESULTS ARE TO BE UPLOADED TO THE REDCAP SCREENING FORM.

Studies offered with analysis provided:
(Please check any that apply)

- [ ] Whole Body Composition - (regional breakdown of fat mass, lean mass, total mass, % fat, BMC, BMD)
- [ ] Lumbar Spine – (L1-L4, BMC, BMD, T+Z score)
- [ ] TBS report (only available in conjunction with spine and hip scans)
- [ ] SE Femur (x-ray image only; no analysis)
- [ ] SE Vertebral Fracture Assessment (VFA) Lateral
- [ ] SE Vertebral AP Image (x-ray image only; no analysis)
- [ ] Left Hip – (femoral neck BMC, BMD, T+Z score)
- [ ] Right Hip - (femoral neck BMC, BMD, T+Z score)
- [ ] Right Forearm (BMC, BMD, T-Score, Z-score for distal, mid, and lower 1/3)
  - ulna values only
  - radius values only
  - Combine radius and ulna for complete forearm
- [ ] Left Forearm (BMC, BMD, T-Score, Z-score for distal, mid, and lower 1/3)
  - Ulna values only
  - Radius values only
  - Combined radius and ulna for complete forearm

Additional required values for study/ Additional Comments:
Example: “We will be scanning the non-dominant hip each time.”

• Please Meet with the DXA tech before your first study to go over the study’s required scans and analysis. They can be reached at VUIIS.HI.DXA.US@VUMC.ORG

• Please bring this form filled out to EACH INDIVIDUAL study.

• We provide the resources for scanning only. KSP attending study will be expected to provide a technologist with the information required for their study.
