Title of the Project*: _____

Brief Description of the Project*:

Principal Investigator (PI)*: _____
 Estimated Number of Studies/Year: _____ Proposed Start Date: _____
 Proposed End Date: _____

Radionuclide(s) to be used*: _____

Purification of material(s) required?*: Yes No
 Do you have experience*:
 handling radioactive materials?: Yes No
 using gamma radiation counters?: Yes No
 with HPLC systems?: Yes No
 using a TLC plate reader? Yes No
 taking radiation surveys?: Yes No

Scheduling F1200 Lab Time

The F1200 SPECT Lab facility has its own calendar where approved lab users are required to schedule use of the facility. This policy needs to be strictly adhered to since the space in F1200 is very limited. Please email Don Nolting to request lab time. The lab calendar will be posted at the VUIIS website:

<http://www.vuiis.vanderbilt.edu/schedules.php>. After your request has been made it will be posted to the calendar once approval has been granted. **Please note, you will not be schedule lab time until you have passed all of the requirements for use of the lab.**
